OUR CLIENTS

MANUFACTURING - FOUNDATION BOLTS & HEXAGONAL NUTS & BOLTS

Our comprehensive range of Foundation Bolts spans from M16 to M65 in Diameter, Strength Grade 4.6 , 5.6 , 8.8 , 10.9 , 12.9 , GR5 & GR8. The IS 2062 standard specifies the requirements for Mild Steel Bolts, including foundation bolts, and the material used for their manufacture. Foundation bolts are typically made of mild steel bars conforming to grade 1 of IS: 432 and/or grade A of IS: 2062. Hexagonal Nuts and Lock nuts should also conform to relevant standards IS: 1363, IS: 1364, and IS: 5624.

Hot Dip Galvanise/MS Foundation Anchor Bolts- Substation

HDG/MS Foundation Bolts- J Type

HDG/MS Foundation Bolts- L Type

HDG Nuts & Bolts- Full Thread & Half Thread

HDG/MS Foundation Bolts- U-Type

HDG/MS Foundation Bolts- Eye Type

MS Sag Rod

TRANSMISSION LINE

Counterpoise Earthing

GI Pipe Earthing

Danger Plate & Phase Plate, Circuit Plate

Anti-Climbing Devices

GI Flat & MS Flat

INTEGRATED PRODUCTS

CCTV/VMS

HVAC System

Fire Extinguishers

FDA (Fire Alarm Detection System)

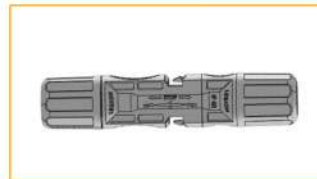

SOLAR PRODUCT

Y - Connector

Fuse Connector

MC4/PV Connector - 70A , DC 1500V

SUBSTATION

Hardware, Clamps and Connectors

Welding Sleeves for IPS

Aluminium/ Copper Lugs and Glands DC/SC

Cables, Termination Kit & Jointing Kits (6.6kV to 400kV)

Flexible Copper Braid

Oil/Gas Storage Tanks

DISTRIBUTION LINE

Stone Base Plate - Square Type

Stone Base Plate - Circle Type

OUR SERVICES

5MVA to 200MVA Power Transformers

VCB & SF6 Circuit Breaker
11kV to 765kV

Capacitive Voltage Transformer
11kV to 765kV

Current Transformers
11kV to 765kV

Lighting Arrestor 11kV to 765kV

Isolators 11kV to 765kV

LT, HT & EHV Cables
(Grade 1.1KV to 400kV)

Testing & Commissioning
of Substation- Up to 765kV

TESTING EQUIPMENT

Transformer oil filtration
plants

SF₆ (Sulfur Hexafluoride)
Gas Evacuation Plant

An Automatic Transformer
Oil BDV test Kit

Stainless Steel Oil
Sample Bottle

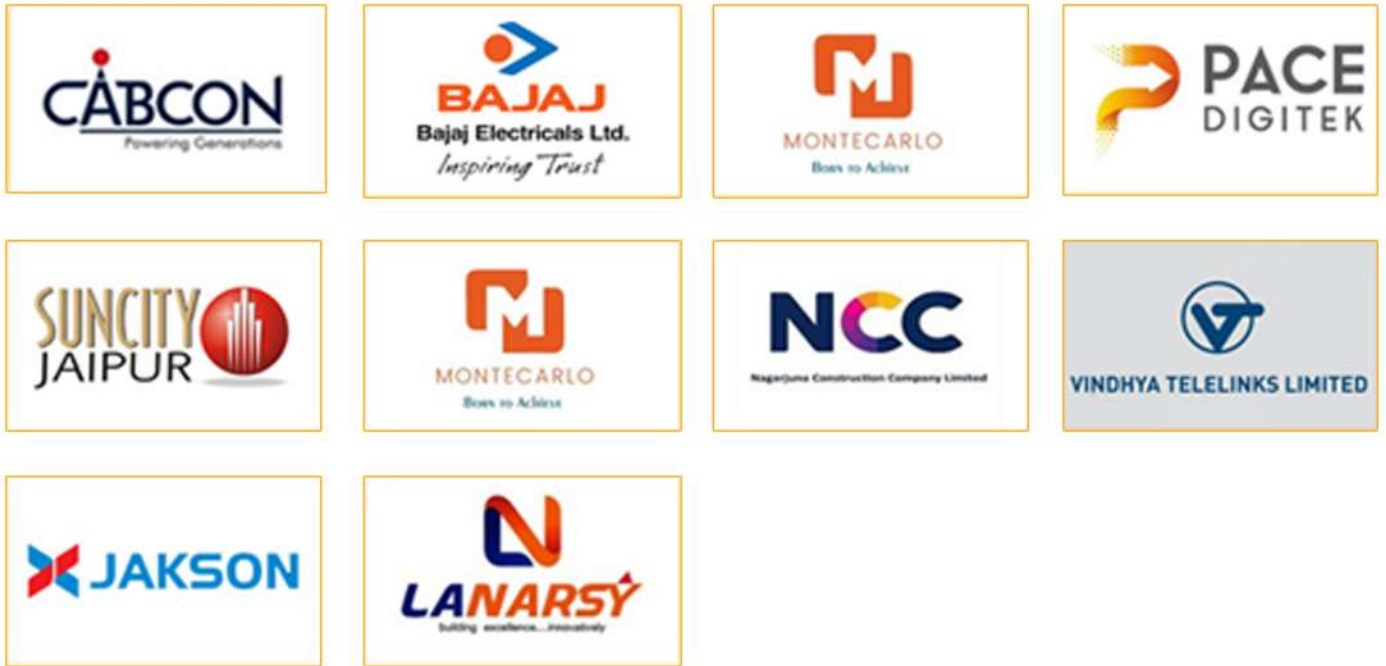

Industrial and electrical
testing equipment

Oil sampling syringe
